Only In America (Live)

(Not Official)

I've seen a visitor to your home
Many things I don't understand
Things I didn't know

Come in tell me I can stay forever
Let me close to your heart
Let me bathe in your dreadful glory
Let me be a part

Only In America…you read your rights to me
Only In America…I watch my trial on TV
Only In America…Only In America
I won't ever be alone
Then why do I feel so lonely

Come on Mama hold that baby of yours
Don't let it fall, don't let it cry
Don't let the man in the Cadillac make it alive

Come on tell me that you love me please
Let me close to your heart
Let me lie in your darkest alleys
Where your forsaken are

Only In A…
Only In America…you won't ever grow old
Only In America…they'll park that car for you
Only In America…much of you has been sold
Only In America…Only In America

As I walk into the sunshine
Take my first breath of fresh air
God knows there's something here for me, out there

Only In America…you won't ever grow old
Only In America…much of you has been sold
Only In America…why didn't I get you free
Only In America…That was my dad on TV
Only In America…Only In America
I won't ever be alone
Then why do I feel so lonely, yeah
I am so lonely

I, I, I, I, I, I, I am alright
