LIKE FIRE

It was gonna be
One of those lives
With everything worked out
But like a crack
In a perfect picture
Fracturing my life
I gotta tell you about it
I gotta let you know

Chorus

This heart burns like fire
These hands touch like fire
I'm gonna burn up
I'm gonna burn up

I am the one
With the golden touch
I am the one born to be King
Yes I am a beacon
On a warm wet night
I penetrate the darkness
With light
I, I tried to tell you about it
I gotta let you know

Chorus

This heart burns like fire
These hands touch like fire
These eyes cut like fire
I'm gonna burn up
I'm gonna burn up

Like fire, I burn, like fire

This heart burns like fire
These hands touch like fire
These eyes cut like fire
This soul sears like fire
I'm gonna burn up
I'm gonna burn up
