Empire (Original)

Empire Acoustic

(Confirmed By Ian Hulme)

(Note Different from “Our Empire” although very similar)

Standing with her back to the ocean
Waiting for the curtain call
Julie has a deal with the sunshine
She knows, she knows

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Tonight I should go but I just don’t know
Tonight I should go if you just say so
Ooh Ooh

Tonight is the night our Empire falls
(Our Empire falls)

View the heat of the morning
Looking at the previews
Stretched from the bridge to the lighthouse
They say, they say,

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Cause, tonight I should go but I just don’t know
Tonight I should go if you just say so
Ooh Ooh

Cause, tonight is the night our Empire falls

You’re in the middle and it cuts your heart out,
You’re in the middle and it cuts your heart out,
You’re in the middle,
You’re in the middle,
You’re in the middle again,

Standing with her back to the ocean
Waiting for her curtain call
Julie had a deal with the sunshine

Cause, tonight I should go but I just don’t know
Tonight I should go if you just say so
Ooh Ooh

Tonight is the night our Empire falls

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Ooh yeah
Ooh yeah

You’re in the middle and it cuts your heart out,
You’re in the middle and it cuts your heart out,
You’re in the middle again
