

### Selection Guide

### Ordering procedure

Using the chart below select your requirement and substitute the underscored text below.

**ACTB.T.W.X.Y** (X & Y are the nominal neck sizes of the diffuser, see overleaf.)

**Example:** If your requirement is for a 12" x 12" (300mm x 300mm) 4 Way blow diffuser, the ordering code would be **ACTB4W1212**. {When ordering it is not necessary to include the periods [..]}

Product Size Numbers									
		"Y" Size

# 2.37

ACTB

## DIRECTIONAL DIFFUSER

### Description

The 2.37 (ACTB) square cone type directional diffuser has an aluminium frame and steel core construction. It has been designed to meet modern building requirements.

The standard bevel frame is suitable for tile or plaster ceilings.

To maximise versatility, the 2.37 series diffuser offers a number of different blow patterns.

The core section is removable for easy installation and maintenance.

As with all Bradflo air products, this diffuser offers maximum air flow characteristics whilst maintaining low noise levels.

### Finish

The standard finish is powdercoat white, baked at a temperature of 180 deg. C. There are fifteen other standard colours available.

Other colours are available as specials upon request.

**Note!** Blanking plates are available for all diffuser types as a special order.  
Refer to following pages for performance data.
