

Description

The 4.32 circular damper with equalising grid has individually adjustable blades to regulate flow. The damper body is manufactured from galvanised steel and the blades extruded aluminium.

Finish

The standard finish is matt black.

Ordering procedure

Using the chart below, select your requirement and substitute the underscored text below **ACK..X**

Example: If your requirement is for a 200 diameter damper, the ordering code would be: **ACK200** (When ordering it is not necessary to include the periods [..])
