**Editorial listing: \$850** comprising one-third page (width 59mm, total height 260mm), 4-colour, up to 300 words, your logo, your company particulars, a picture (maximum finished size 59mm x 59mm). Variations on layout will be considered. Please see example below:

Aneeta Window Systems (Vic) Pty Ltd  
 Unit 2, Rear of 264 Hoddle Street  
 ABBOTSFORD VIC 3067  
 Tel +61 3 9419 7922 Fax +61 3 9419 7933  
 Mobile 019 401 029

*Sashless windows installed into doors.*

Aneeta Window Systems' sashless (frameless) windows are an attractive, versatile development in openable window design.

These versatile, double-hung windows can be fitted to new or existing timber or aluminium frames on windows and doors in any combination of single or paired doors, sliding doors or bi-fold systems. The combination of the window and door units provides a system for rooms with limited space.

Aneeta sashless windows offer security and ventilation simultaneously. Two moving vertical panes of counter-balanced glass, which opens at both the top and the bottom, provide excellent rotational ventilation and with a concealed locking fixture, windows or doors may be locked even when partially open.

Aneeta sashless windows are appropriate for internal and external use and are available in double glazed or acoustic units. Float, laminated or toughened glass can be used in any tint or glass design. They have also been tested to the requirements of the relevant Australian design codes.

Aneeta sashless windows may be produced to heights of up to 4.5 m and widths of up to 2 m without increasing the effort required to open them. The only force required is to overcome the initial inertia and the minimal friction of the pile weatherseals.

With no timber or aluminium frame surrounding the glass, the window will not jam with age and may be easily cleaned.

These lightweight, versatile, unobtrusive sashless windows are an intelligent and harmonious solution for all building designs.
