

YOU'RE WITH THE BIG BOYS NOW (CARRIE)

Don't you ever grow up
Don't you ever grow up on me - Carrie
The way you are is alright
The way you are is alright with me,
Don't you see

You're damn impatient
You think this world won't wait for you
You put your hair up
And it's put your price up, you fool

You've got yourself a foreign car
You're with the big boys now
You've got yourself an overdose
Well you're a big girl now

You wake up and it's over
You wake up and it's too late
Where did all those lines come from,
Tell me
You wonder where a day went
You wonder where a week went
But it won't be me that does it to you,
No

You're damn impatient
You think this world won't wait for you
You put your hair up
It's put your price up, you fool

You're sleeping with a rock star
You're with the big boys now
You threw away your training bra
Cos' you're a big girl now

You're damn impatient
You think this world won't wait
You're going into overdrive
You're with the big boys now
You're lucky if you'll survive
You're with the big boys now

You wanna be a fashion plate
Cos' you're a big girl now
Will you ever graduate
Yes you're a big girl now

Big girl now
