

RUNNING FROM THE STORM

You're laying down all the rules
Now tell me how to win
You played us all for fools
Now you're running from the ring

How's your form
Running from the storm
Since you were born
Running from the storm

Undercover
Face in the dirt
Who's gonna catch you
Who'll be the first

Now one day, someday soon
I know you'll pay your bills
And to see you fork it out
It'll give us all a thrill

Chorus

Undercover
Face in the dirt
Who's gonna catch you
Who'll be the first

Undercover
Face in the dirt
Who's gonna catch you
Running from the storm

Since you were born
Running from the storm

TALK BIG

You think you own the place
You say you pay the bills
You say you know the man
You know the man by name
Yeah, yeah, you gotta mouth
You can outdrink the boys
You've even laid their wives

Well you Talk Big
But you ain't got nothing to say
All that big talk
But your mouth gets in the way

Well I've seen the dirty side
The dirty side of you
And I've seen you kiss the feet
Of someone better than you
Yeah, yeah, don't call me friend
They're gonna take me for everything
Everything they can

Well you Talk Big
But you ain't got nothing to say

Come on
Tell me something new
Tell me something I don't
Tell me something I don't know

(Talk Big)
But you ain't got nothing to say
(Big talk)
But your mouth gets in the way

Repeat double chorus

Say something, say something
Say something good
Say something, say something
Say something I don't know

NEVER GONNA DIE

You know they think we're crazy
You know they think we're all insane
When the Fridays bring the weekends
The night will be our home again

The smell of beer and perfume
The rhythm pushes down the street
They'd like to touch that freedom
They'd like to have you at their feet

But you don't have to grow up
You don't have to get old
I'll tell you why

We're never gonna die
We're never gonna die
Kiss them all goodbye
We're never gonna die
Never gonna die

They say we can't be angels
I say I knew that all along
I don't need social standing
I'm gonna stand where I belong

I don't live for music, no
I say I live for rock 'n' roll
We won't let them push us
We won't let them touch us
I'll tell you why

We're never gonna die
We're never gonna die
Tell them why
We're never gonna die
We're never gonna die

You don't have to give in
And you don't have to give up
Tell them why

We're never gonna die
We're never gonna die
No, we're never gonna die
We're never gonna die
No (*never gonna die*)

Never gonna, never gonna die
Never gonna, never gonna die
No, we're never gonna die

YOU'RE WITH THE BIG BOYS NOW (CARRIE)

Don't you ever grow up
Don't you ever grow up on me - Carrie
The way you are is alright
The way you are is alright with me,
Don't you see

You're damn impatient
You think this world won't wait for you
You put your hair up
And it's put your price up, you fool

You've got yourself a foreign car
You're with the big boys now
You've got yourself an overdose
Well you're a big girl now

You wake up and it's over
You wake up and it's too late
Where did all those lines come from,
Tell me
You wonder where a day went
You wonder where a week went
But it won't be me that does it to you,
No

You're damn impatient
You think this world won't wait for you
You put your hair up
It's put your price up, you fool

You're sleeping with a rock star
You're with the big boys now
You threw away your training bra
Cos' you're a big girl now

You're damn impatient
You think this world won't wait
You're going into overdrive
You're with the big boys now
You're lucky if you'll survive
You're with the big boys now

You wanna be a fashion plate
Cos' you're a big girl now
Will you ever graduate
Yes you're a big girl now

BOYS IN THE BAND

It's the city club
And the band is selling tunes
The sound of electric strings
Reach round the room
The drummer hits a backbeat
To the songs that tell the score
As the singer's words
Echo across an empty floor

Burn up, burn up, burn up
Live while you can
Raise up, raise up, raise up
Drink while it's there
While it's there

Give a little more
For the boys in the band
Try a little harder
For the boys in the band

Wallets full of dreams
And their hearts high on speed
It's time the boys
Got everything they need
The managers and the money
The powder, the booze
There's someone there to tell them
They'll never lose
Hear 'em say

Burn up, burn up, burn up
Live while you can
Raise up, raise up, raise up
Drink while it's there
While it's there

Chorus

Hey you money men
You wanna get to know
The boys in the band
Hey you, middle men
Get close to the boys in the band
Do you know what
Do you know what
The boys don't give a damn
No

Give a little more, give a little more
For the boys in the band
Try a little harder please

For the boys in the band

Put it together, put it together

For the boys in the band

Give a little more please

For the boys in the

FIGHT BY THE BOOK

See his face in the paper
Read his words on the screen
Hear his voice on the airwaves
Never a word unclean
He's someone
He's someone
He's someone
Better than me
But he won't get in close
He won't touch me
No not me

You can't touch me
You can't touch me
You can't touch me
I run by the rules
You can't touch me
You can't touch me
You can't touch me
I fight by the book

He gets his clothes
At the best store
He gets his hair cut for free
He never walks with the riff raff
He wouldn't like to talk to me
He's someone
He's someone
He's someone
So much better than me
But he won't get in close
He won't touch me
No not me!

Repeat double chorus

BOUGHT AND PAID FOR

She was a lady of the street
A friend in another mans keep
One room, one bed
But she needed more
Than those rich boys for the night

But she had plans to run
The blackmarket sells a gun
He said you're mine
He said you're mine

Hey you
You're bought and paid for, darlin'
Yeah you
You're bought and paid for

Backseat bus to another world
APB's they're gonna get their girl
One shot, one shot
That was all she used
She had paid him back the lot

A different town
A different name
Same old looks
Same old game
Same old girl
She'll never change

Chorus

In a vacant parking lot
The needle's all she's got
It sold her out
It sold her out

Chorus

I, say you
You're bought and paid for darlin'
Yeah, yeah, yeah
Don't tell me you, tell you
You're bought and paid for darlin'
You're bought and paid for
You're bought and paid for
You're bought and paid for

I'M NOT YOUR HERO

Five o'clock whistle blows
The punch cards stand in line
The factories line the streets
Get the train on time

How long must I fool myself
I'm working for the man
He holds me to ransom
I'm putty in his hands

No more, no more

I'm not your hero
I'm not your hero
Not me, not me

I go buy that old guitar
The pawnshop's selling cheap
Then down by the vacant lot
Sell my voice to the street

Hey you in your leather chair
You hear me well
I'll get my freedom
So spend your time in hell

No more, no more

Chorus

No more, I said no more

Cos I'm not your hero
Well I'm not your hero
Not me, not me
And I'm not your hero
I'm not your hero
Not me, not me

BLOOD IS THICKER THAN WATER

She turns the heads
Of the social world
Her face is money
Big money
From the camera lens
To important beds
They all want her
They all need her

But we shared the sweat
In my old man's car
The cheapest booze
The late night bars, she'll know...

Blood is thicker than water, yeah
Blood is thicker than water, yeah

It's in her blood
She can't forget
The taste of hunger
The taste of anger
When we'd run the streets
And run the night
We needed freedom
We needed freedom

If you watch the street
Through your penthouse pane
Can you feel your blood
Start to race again
Yeah you know...

Chorus

Blood is thicker than water
We were like brother and sister
Blood is thicker than water
We were like son and daughter
Blood is thicker than water

Blood is thicker than
Blood is thicker than water
Blood is thicker than
Blood is thicker than, tell me
Blood is thicker than water
We were like son and daughter
Like brother and sister
Like brother and sister
Blood is thicker than water

BULLSHIT

Well it's in black and white
Up in lights
On the wall
The toilet door
Like a guiding light
They'll drag you to the left
They'll pull you to the right
Lift you up
Just to let you down
Kick you out at night
I say the politics
Well they're lunatics
They say it's right
But we know it's wrong
Spread the word

But it's all just
Bullshit to me
Bullshit to me
Bullshit to me
Bullshit to me

Hey don't stand in line
And don't pay that fine
You shouldn't have worked today
You should have stayed away
And spread the word
Well as the sweat runs down
This furrowed brow
Across these hands
Across this machine
I don't care anyhow

Chorus

But it's Bullshit to me
Bullshit to me
Bullshit to me
Bullshit
Just all, just all Bullshit
Just all, just all Bullshit

Bullshit, Bullshit, Bullshit

While you keep on touching
Keep on touching

(Not Official)

1-2-3-4

1-2-3-4

I wanna hold her
For a while
So I can tell her
That she's got style

But I know
She won't cut my haircut
She don't take no chance
She will drive me crazy but...
I can dance

Talking politics
Over drinks
Who's the President
Who's the King... (*who knows*)

And I'm not special
I get no breaks
And I'm not lucky
I arrive too late

Yes I know
She won't push me over
She don't like my pants
She won't drive my car but...
I can dance

Yeah, Yeah
Yeah, Yeah
Yeah, Yeah

Yeah
You don't like our music
And you don't like our songs
You don't like our stance but...
We can dance

We can dance

Ah, ah

We can dance

Ooh

We can dance

Yeah

We can dance

Hey, hey

Yes I know

We don't wear no make up

We don't waste romance

We don't favour politics but.....

We Can Dance.....

RUN TO PARADISE

Baby, you were always gonna be the one
You only ever did it just for fun
But you Run to Paradise
Jenny, I'll meet you at the grocery store
You don't need a friend when you can score
You Run to Paradise

Johnny, we were always best of friends
Stick together and defend
But you Run to Paradise
And Mamma, now don't you worry 'bout me anymore
And I see you crying at the door
When I Run to Paradise

That's right, they had it all worked out
You were young and blonde
And you could never do wrong
That's right, they were so surprised
You opened their eyes up
(opened their eyes up)
Opened their eyes up...

Chorus

You don't want anyone
(you don't, you don't, open your eyes up)
You don't want anyone
(you don't, you're no fool)
Don't tell me, this is Paradise
(open your eyes up)
You don't want anyone
(you don't, open your eyes up)
You don't want anyone
(you don't, you're no fool)
Don't tell me, this is Paradise

Good times, why'd I let 'em slip away
Why'd I let them slip away
Cause I lived in Paradise
Run to Paradise
Run to Paradise
Run to Paradise

Jesus says it's gonna be alright
He's gonna pat my back
So I can walk in the light *(that's right)*
You don't mind if I abuse myself
So I can hold my head up
(hold my head up)
Hold my head up

Chorus

You don't want anyone
(You don't, hold my head up)
You don't want anyone

STRUGGLE TOWN

We had this dream about a chance to go
To the city streets we've heard are paved with gold
And I'm walking out
I'm not looking back
I'm never going back

Chorus

Back to Struggle Town
Down to Struggle Town

I hear my father's working night and day
In Struggle Town it has to be that way
The more you give
The less you get
I'm never going back

Back to Struggle Town
Down to Struggle Town
Oh back to Struggle Town
Back in Struggle Town

And I remember when I was a kid
Seventeen trying to be twenty-one
Never happy, never satisfied
And now I wish that I was home again
Out of Struggle Town
Out of Struggle Town
Never going back
Life in Struggle Town
Hey, back to Struggle Town

Get out of Struggle Town
Don't you know you gotta leave
Get out of Struggle Town
Never, going back
Never going back
Oh yeah, ah never going back

Oh no you couldn't stop us
We're making all the noise

Now the wisdom that the years bring
Can't help us anymore

The first to ask for more
Oh yeah now don't you worry
Don't you worry what tomorrow's gonna bring
Oh no you couldn't stop us
Making all the noise

So now you're getting older
Don't try to settle down
You gotta live it to the limit
And that's why...

GASOLINE

Can you know her so well
It's a thousand years and still crystal clear
You can hear it so loud
That dirty voice deep inside your ear
She's looking at you
Yes I know it, I know it
She's looking at me
Yes I know it, I know it

Sometimes it's worth giving everything
For that one brief moment to be obscene
Like a machine

Chorus

Did you see her, burn like Gasoline
Did you see her, explode like Gasoline

She's moving around
She sells me this and she sells me that
There's no fear on her face
She's got everyone locked in their place
I remember those eyes
They were green or blue, they were stupid or wise
So the boys down the front
They'd do anything just to see her cry

Sometimes it's worth giving everything
For that one brief moment to be obscene
Like a machine

Did you see her, burn like Gasoline
Did you see her, explode like Gasoline
Yeah did you see her, white hot like Gasoline
Did you see her, burn like Gasoline

It's a great day that's coming
It's a great day right now
And I see the light burning
And it's her time right now

Got a short term memory
Thank God for that
You've found your long lost enemy
But now you won't look back
Didn't know at eight o'clock
You didn't know at nine

You say you know this time
One day, you'll leave them all behind
Some day, gonna strike them blind

It's gonna burn your heart
One Hot Day
It's gonna strike them blind
One Hot Day

As the poet wrote the words
We're the lucky sons
One life, one life is all you get
So take it while you're young
Go and paint a Rembrandt
Go and lay the Queen
Pay up, pay up, have your fun
Realise your dreams
One day, leave them all behind
Some day, the sun will strike them blind

LAST NIGHT OF MY LIFE

You'll dress in red
I'll dress up right

There'll be no one crying
When I finally pay my bill
I'm going down to the courthouse later
I'm going to ask the Mayor to
Change my Will, for the good
Of you all

Chorus

You'll dress in red
I'll dress up right
On the Last Night of My Life
All my friends will be there
So happy and tight
On the Last Night of My Life

I'm gonna put on my suede boots
And my faded blue jeans
I'm gonna do it like I did last night
I'm gonna do it like it's my last night
When I think of all the things I've done
You know I haven't done much
But if I had the chance to do it all again
You know I wouldn't change much

I'm gonna find out
On the last night
Last Night of My Life

I don't want to live 'til a hundred and three
Twenty one, that'll suit me
It's good enough, good enough for me
'Cause I don't want to die old
No I don't, no I don't
No I won't die that old

Empire (Original)

Empire Acoustic

(Confirmed By Ian Hulme)

(Note Different from “Our Empire” although very similar)

Standing with her back to the ocean
Waiting for the curtain call
Julie has a deal with the sunshine
She knows, she knows

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Tonight I should go but I just don't know
Tonight I should go if you just say so
Ooh Ooh

Tonight is the night our Empire falls
(Our Empire falls)

View the heat of the morning
Looking at the previews
Stretched from the bridge to the lighthouse
They say, they say,

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Cause, tonight I should go but I just don't know
Tonight I should go if you just say so
Ooh Ooh

Cause, tonight is the night our Empire falls

You're in the middle and it cuts your heart out,
You're in the middle and it cuts your heart out,
You're in the middle,
You're in the middle,
You're in the middle again,

Standing with her back to the ocean
Waiting for her curtain call
Julie had a deal with the sunshine

Cause, tonight I should go but I just don't know
Tonight I should go if you just say so
Ooh Ooh

Tonight is the night our Empire falls

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Ooh this Empire
Ooh stands in the middle
Stands in the middle
Stands in the middle of time

Ooh yeah
Ooh yeah

You're in the middle and it cuts your heart out,
You're in the middle and it cuts your heart out,
You're in the middle again

Only In America (Live)

(Not Official)

I've seen a visitor to your home
Many things I don't understand
Things I didn't know

Come in tell me I can stay forever
Let me close to your heart
Let me bathe in your dreadful glory
Let me be a part

Only In America...you read your rights to me
Only In America...I watch my trial on TV
Only In America...Only In America
I won't ever be alone
Then why do I feel so lonely

Come on Mama hold that baby of yours
Don't let it fall, don't let it cry
Don't let the man in the Cadillac make it alive

Come on tell me that you love me please
Let me close to your heart
Let me lie in your darkest alleys
Where your forsaken are

Only In A...
Only In America...you won't ever grow old
Only In America...they'll park that car for you
Only In America...much of you has been sold
Only In America...Only In America

As I walk into the sunshine
Take my first breath of fresh air
God knows there's something here for me, out there

Only In America...you won't ever grow old
Only In America...much of you has been sold
Only In America...why didn't I get you free
Only In America...That was my dad on TV
Only In America...Only In America
I won't ever be alone
Then why do I feel so lonely, yeah
I am so lonely

I, I, I, I, I, I, I am alright

Bombs Away

(Confirmed By Ian Hulme)

Hey, Hey
I'm flying over Moscow
A pretty night time town
I got my orders on the beacon
I think it's going down

Flying into New York
Snow covered streets
I here the sirens echo down
Be quick on your feet

Chorus

Hey, Bombs Away
Bombs Away
Bombs Away

Ronald press the red one
He got an itchy hand
No one told him what to do
He thought he be the man

Chorus

Do it again

Chorus

Kiss goodbye
Kiss goodbye
Its goodbye
Just say goodbye

Chorus x 5

Jamie's Night

(Not Official)

You are the one
You are the one
You always dream of something

You stand-alone
The underdog
And there's no one even hears you

He's the only boy in town
Wonder why you did it
Holding on this long

Oh that's right
That's right
Oooooo it's Jamie's night
That's right
Oooooo it's Jamie's night

And I can remember one thing he said
He says so free
Oooo being famous for a moment

So here you are
Johnny boy
And take every little soldier
Kiss the boy who knows where else to fold
Wonder why you did
Holding out tonight

Oh that's right
That's right
Oooooo it's Jamie's night
That's right
Oooooo it's Jamie's night

Something better so the price might baby
I had a feeling I would let you goooooooo

I am the one
I am the one
Holding onto something

I am the one
I am the one
Holding onto something tonight

That's right
That's right
Oooooo it's Jamie's night
That's right
Oooooo it's Jamie's night

That's right
Oooooo it's Jamie's night

Sweet Seduction

(Not Official)

Well over my head
Out of my mind
I want the sun don't shine
But I still feel pain
I've been standing in the light
Like that first time, with you

And I wonder what you're doing tonight
While my car feels cool
I can see you light
I can feel you drift away
In a history, so long

(Goodbye, Goodbye, Goodbye)
You and me now, we have trouble
Don't you know that the devils going to touch me today
So long my Sweet Seduction, of mine
Woouooooo
Oh yeah

Down on the street
There in my car
Wait till the morning brings
We've got to find
You were hiding in the rain
At my hotel all night

And I gave myself up
Yes I gave myself up
And I gave myself to you
Whoa, yeah

(Goodbye, Goodbye, Goodbye)
You and me now, we have trouble
Don't you know that the devils going to touch me today
So long my Sweet Seduction, of mine
Woouooooo
Hey, hey

What a good time
God it's falling, it goes bad
Well it couldn't, cause it never last
My Sweet Seduction
It's all we had
But there's no way, I could live in the past
Hey, hey
Alright
Hey, hey
Alright

And I gave myself up
Yes I gave myself up
What I gave myself to you
Whoa, yeah

(Goodbye, Goodbye, Goodbye)
You and me now, we have trouble
Don't you know that the devils going to touch me today
So long my Sweet Seduction, Oh yeah
Woooooooooooo

You and me now, we have trouble
(Hey)
You and me now, we have trouble
(Goodbye)
You and me now

Hey, Hey
(Alright)
Alright
(Alright, Alright)
My my my my Sweet Seduction
(Alright, Alright)

MIDNIGHT SUN

Well have you seen that light
Burning in the window of time
As you get closer to that dream
It falls by the wayside

Can you hold your head up
In the winds of change
Woh, you've been waiting for the deliverance
But it never came

Woh... don't look down
Yes I know you're on shaky ground
Yeah... well here I come
The devil's boy, I'm a loaded gun...

Baby I'm the one
Baby I'm the one (don't you know me)
I am the keeper of the Midnight Sun

I'm not what you expected
I'm spittin' fire and smoke
Yeah I'll burn my way into your life
Put a tattoo on your soul

Woh... you hold back
Bank on this boy and that's a fact
I can break that spell
'Cos what I do, I do very well

Hey... baby I'm the one
Baby I'm the one (yeah you know me)
I am the keeper of the Midnight Sun
Baby I'm the one (I am the chosen one)
Baby I'm the one (I'll be the only one you need)
I am the keeper of the Midnight Sun

Woh... don't look down
Yes I know you're on shaky ground
Yeah... well here I come
The devil's boy...

Repeat double chorus

Midnight Sun
Midnight Sun
Midnight Sun

EMPIRE

Standing with her back to the ocean
Is this the final curtain call?
Still trying to make a deal with the sunshine
It's over, it's over

Once bathed in glory
But now your image is fading
Hands start shaking
Looks like you've run out of time

'Cos tonight is the night our empire falls
With a sword at your throat your blood runs cold
Wo-oh I know that tonight is the night our empire falls

Frightened by the heat of the moment
Walls are crashing to the ground
Burning from the bridge to the lighthouse
She's dying, she's dying

Ooh this empire
And now your image is fading
Your hands start shaking
Looks like you've run out of time

Tonight is the night our empire falls
With a sword at your throat your blood runs cold
Wo-oh, I know that tonight is the night our empire falls

Stuck in the middle and it cuts your heart out
You're in the middle and it cuts your heart out
You had your glory, you had your glory
Now it's a matter of time

Standing with her back to the ocean
Is this the final curtain call?
Trying to make a deal with the sunshine

Tonight is the night our empire falls
With a sword at your throat your blood runs cold
Wo-oh, I know that tonight is the night our empire falls

Well you once had a dream that was like fools gold
Still they'd die at your side if you'd just say so
Wo-oh, I know that tonight is the night our empire falls

Oooo yeah
Oooo yeah

RISE UP

I see the night time people
I see the lovers of the bright sunlight
You started something special
But revolutions never turn out right
Do you know where you're going
Or are you hanging on for the ride

That's not the worst of things
I can't tell you it will be all right
You've burned your candle end to end
Now you're down at the bottom... once again

Rise up
Once you raise your eyes into the sun
Your battle's begun
You can rise above all the things you love
Just hold on till the end

You say that life means nothing
Lay on the beach and you get blown away
But I hear your heart beatin' baby
Your pulse is weak, I think you'll be ok

'Cos I see the best of things
Lies somewhere in the kiss of knowledge
Bullshit ends when faith begins
If you're down at the bottom, at the end

Rise up
Once you raise your eyes into the sun
Your battle's begun
You can rise above all the things you love
Just hold on till the end

Rise up
Well it's not too late
Got to play it rough when a push comes to shove
You can rise above all the things you love
And time won't stop us then

Can you get up...
Can you get up...
Can you get up...
Can you feel it...
Can you feel it...
Can you feel it... yeah

Down at the bottom... at the end

Repeat double chorus

Rise up
Rise up
Rise up
Rise up

PLACE WITH NO LOVE

I read the book
It blew my mind
Just like a drug
You ruled my life
And I obeyed
But not this time

I don't believe it anymore
I won't believe it anymore

Yes I have a face
Like no other face
Let 'em know what it's like in a place with no love

I'll tell you this
It felt so good
To let it go
(You ought to know by now)

I won't go down
I won't go down without a fight, oh no
I will not be
What I don't want to be
(You ought to know by now)
God ought to know
(You ought to know by now)
God ought to know
What it's like to be left in a place with no love

(You ought to know by now)
Yes I have a face
(You ought to know by now)
Like no other face
If it screamed, if it cried, would you ever know?

I don't believe it anymore
I won't believe it anymore
Not anymore

You ought to know by now
You ought to know by now
We've made our beds
We've sown our seeds
We have control of what will be
Look at yourself, that's all you need

(You ought to know by now)
Yes I have a face
(You ought to know by now)
Like no other face
Let 'em know what it's like in a place with no love

(You ought to know by now)
I will say goodbye
(You ought to know by now)
I got out alive
Say a prayer for the rest in a place with no love

(You ought to know by now)
God ought to know
(You ought to know by now)
God has to know
What it's like to be left in a place with no love

I read the book
It blew my mind...

RENDEZVOUS

Yes I had a dream
Like a million kids from my home town
We found love on dirty streets
If I knew then what I know now
From discotheque to home
There was no place left for us to go

Now we're on the road to our Rendezvous
With nothing, there's nothing to lose

How can you fly with your feet on the ground
Take all of your dreams, let's get out of this town
I'll meet you tonight and we'll run to the flame
Just hold on, it's all right, it's our time
To Rendezvous... these chains are broken

We restaurant racketeers
Making plans to get us outta here
She looked good against the highway
As my hands were shaking at the wheel

Woh, still on the road to our Rendezvous
With nothing, there's nothing to lose

How can you fly with your feet on the ground
Take all of your dreams, let's get out of this town
I'll meet you tonight and we'll run to the flame
Just hold on, it's all right, it's our time
To Rendezvous... these chains are broken

And when it's over and done you'll see it's alright boy
You say that there's danger tonight
But I say hold on... hold on

Just hold on, it's alright, it's our time

How can you fly with your feet on the ground
Take all of your dreams, let's get out of this town
I'll meet you tonight and we'll run to the flame
All of our chains will be broken

Hold on boy
Hold on
I'll meet you tonight and we'll run to the flame

CLOSE WINDOW

BATTLE BOULEVARD

Oooo wild-eyed boy on the street
With a preacher's heart
Tore my way out of the city
A priceless work of art

I hear the guitars playing My Generation
That used to be our song
And I can feel the beat down on the boulevard

High and alive
Thought it would last forever
We could not die
I still can see all the sparks rising up from the heat
On the Battle Boulevard

Blood spills onto concrete and steel by the vendors stand
Jesus Christ, I wish I had done something about that situation
But no one gave a damn

On every corner was a jukebox tough boy
To take the whole world on
They looked so razor sharp down on the boulevard

High and alive
I thought it would last forever
Could not die
I still can see all the sparks rising up from the heat
On the Battle Boulevard
High on a time
I thought we would last forever
On the Battle Boulevard

And the boulevard was addictive
Yes the boulevard owned your soul
I'll meet you on the backstreets
High on the battle road

Oooo wild-eyed boy on the street
With a preacher's heart
They call your name out in the city
On the Battle Boulevard

High and alive
Thought it would last forever
Could not die
I still can see all the sparks rising up from the heat
On the Battle Boulevard
Here's to a boy, dressed in the images of
A day in our lives
I still can see all the sparks rising up from the heat
On the Battle Boulevard

GOING HOME (FOR CATHAL)

You're the one
Left behind
Something there that's pulling me away
Empty houses, empty streets
Mother's cooking apple pie and washing on the line

But I've lived a dreamer and I've lived in hope
But I don't want to stay here on my own

I'm going home... you stand there on your own
I'm going home... you stand there all alone

Well I'm standing at the station
With a suitcase in my hand
A ticket and a promise, just a vision of a man
And I think about it baby
Yes I think about that dream
And I hope that someday, somehow I will get it right
Get it right

I'm going home... you stand there on your own
I'm going home... you stand there, you stand there
You stand there all alone

And I wonder what I'm doing here tonight
I'm sure they'll give me back one some day
And you know that I have tried to say the truth
I say you're not alone
Get it right, get it right

Yeah... all right
Yeah... all right

And I wonder what we're doing here tonight
We say we'll get it back one some day
You know that I have tried to say the truth
You see you're not alone

Yes I'm going home
Yeah I'm going home

You stand there, you stand there, you stand all alone
Don't you know I'm going home...
You stand there, you stand there, you stand all alone
Ah yeah
You stand there, you stand there, you stand all alone
And I'm coming home Mama

ROMANCE STREET

I go down to the street
To watch the old beggars dying
The young girls with too much make-up on their faces
Beg forgiveness from their owners
Boys in their twenties with scars on their cheeks
And guns in their hands

And it's 11am and I finish my breakfast and I paid my bill
And I walk into hell once more

Oh yes, take my hand
Out along no man's street
Oh yes, take my hand
Out along inspiration street
Step by step, inch by inch
I'll look out for you
Along Romance Street

From my motel room
I shout insults at the people below
So they chant in unison,
'Hey won't you let us, let us go'
The telephone rings and the TV won't work
Yes and I'm making notes from what I observe
And the neon lights paint pictures on my wall
Of the boy and the girl dressed in leather and blue
And he says, 'Hey babe, can I make love to you?'

Oh yes, take my hand
Out along lonely street
Oh yes, take my hand
Out along desperation street
Step by step, inch by inch
I'll look out for you

Oh yes, when I sip my wine
From the money I made with the songs you gave
I wish I had you with me

Oh yes, take my hand
Out along lonely street
Oh yeah take my hand
Out along desperation street
Oh yeah take my hand
Out along inspiration street
Whoa yes, oh yes
One more time down on lonely street
Step by step, inch by inch, I'll look out for you
Along... Romance Street
Romance Street, Romance Street
Yeah, yeah, yeah, yeah

Out along desperation lane

WE CAN DANCE

I wanna hold her
For a while
So I can tell her
That she's got style

But I know
She don't like my face
She don't like my car
And she won't like my pants but...
We can dance

We're talking politics
Over drinks
Who's the President... (*I am*)
Who's the King... (*who knows*)

And I'm not special
I get no breaks
And I'm not lucky
I arrive too late

But I know
You don't like my mind
The colour of my skin
You don't like my stance but...
We can dance

You don't like our music
And you don't like our songs
You don't like our band but...
We can dance

We can dance
Just give me one more chance

WE BELIEVED

I was young I didn't know
That all comes and that all goes was the truth
I just believed

Vietnam and Jesus Christ
Symbols of what I despise
Look at me, I've been deceived

Someone said that all that glows is not like gold
The things you want to keep are hard to hold

Every lie that we've been told cuts closer to the bone
(Don't you know that you've got to fight a little harder
Fight a little harder boy)
Fight a little, fight a little more

Politics is genocide
We're stripped of thought and tranquilized
It's a fool who just believes

See that girl in the long white dress
She don't know that this is the best that it gets
It's make believe... yeah

So here you are with a TV guide and a wedding ring
Time goes by, now what's it done to you
Is passion lost in youth

Every lie that we've been told cuts closer to the bone
(Don't you know you've got to fight a little harder,
Fight a little harder boy)
Fight a little, fight a little more
When you close your eyes it's hard to see
That's the easy way to die
(Don't you know you've got to try a little harder,
Try a little harder boy)
Try a little, try a little more

They will believe it... They will believe it

When you're young, you don't know
That all that comes and all that goes is a lie
You just believe

Someone said that all that glows is not like gold
The things you want to keep are hard to hold
Yeah, they're hard to hold

Repeat double chorus

All Night

(Not Official)

She's 17
She lives in walls of paper, boredom
Her mum and dad
They know she's there
But they don't, see her

(See it's not over)

Oh no no

(See it's not over)

Here I am
Holding on All Night
Holding on All Night

Well don't you know that
One man
Feels like another man
One man
Looks like another man to you

She's going to buy a car
She's going to leave today
I know this
She's crazy

She said you and me
We've got
Nothing to lose
Let's go this time away

(See it's not over)

Ooooooh

(See it's not over) He said

Here I am
Holding on All Night
Holding on All Night

Well don't you know that
One man
Feels like another man
One man
Looks like another man

And I love you baby
More than words can say
And it hurts me darlin

And I wait here for you
Yes I am holding on
All Night
Holding on All Night

Don't you know that
One man
Feels like another man
One man
Looks like another man to you

Hold On
Oh you got to do it like another man has
Holding On All Night
Don't you baby

Don't you know that
One man
Feels like another man
One man
Looks like another man to you

FRIDAY NIGHT

Lets go out tonight

The doorman knows me
I'm a special case
You see spiritually I'm off my face
He knows something that I don't know
I don't fit and I guess it shows
I have an office on the second floor
On the balcony outside the toilet door
I see the talent going in and out
I guess you'd call me a talent scout

On a Friday night, Friday night, Friday night
Everything's gonna be alright

There goes Bernie he owns this club
Not this one it's called Rub-a-dub-dub
He'd like me to come and stay for a while
Hey no thanks man I'm just cruisin'
And I give him a smile

On a Friday night, Friday night, Friday night
Everything's gonna be alright

On a Friday night, Friday night, Friday night
Friday night

Angelina requiem
Needs to feel that beat again
(Sorry all, can't work out what Mark's singing here)

On a Friday night, Friday night, Friday night
Everything's gonna be alright

CLOSE WINDOW

DROPS LIKE A STONE

House, down on Pilling
In the bedroom, she lies alone
She's dreaming of, of a past life
And the lovers she'd never known

Hello again, hello again
My dear occupation
Inside of me, inside of me now

You, your mind is made up
Stand at the window, you're leaving home
And you Drop Like a Stone, baby

Truth is, stranger than fiction
Where you landed, the grass won't grow
The kids all played, in your backyard
Talk about you, even though you're gone

Hello again, hello again
My preoccupation
You, your mind is made up
Stand at your window, you're leaving home
Drop Like a Stone baby
You're mixed up crazy
When they laid you
No one came
And you Drop Like a Stone

Hello again, hello again
My dear occupation yeh
You, your mind is made up
Stand at your window, you're leaving home
And you Drop Like a Stone baby
You're mixed up crazy
When they laid you
No one came

But you Drop Like a Stone
Drop Like a Stone yeh
Oh you Drop Like a Stone

HARD HEART

From my window
A pretty girl walks by
She just smiles at me
And then says goodbye
I'm like anyone, I need something new
Woh and tonight, I guess that's you

You and me babe
We've got a... death wish alright
And your Hard Heart has me tonight
And we're old before we know
Baby I, I won't let go

From my backseat
My old car we make love
She said boy I need you now
Like the Lord from above
Where were you, when the rains came down
Woh I was a fool, I was out of my mind

I don't mind that
You're laughing
I've got all night
And your Hard Heart has me alright
And you know, what I know
Baby and I, I won't let go

You and me babe
We've got a... death wish alright
And your Hard Heart has me tonight
And we're old, before we know
Baby and I, I won't let go
Baby I
I won't let go
I won't let go
I won't let go
I won't let go

DON'T SAY GOODBYE

Jimmy Jones come runnin' across the street
To say hello
Says hey Mark how you going?
Well I said I just don't know
We could go down to the wharf
Or we could play some pool
Look at all the pretty girls
Mmmm that's what we should do

Don't Say Goodbye
Don't Say Goodbye
Don't Say Goodbye
Don't Say Goodbye

Got some change in my pocket
Maybe I'll give my girl a call
Maybe not, the sun's shining
Anyway we don't get along so well no more
That guy with the red hair
Did he used to be your friend or was he mine
Think I know where his mother lives
We should go around and see him sometime

But Don't Say Goodbye
Don't Say Goodbye
Don't Say Goodbye baby
Don't Say Goodbye

Woh-oh, woh-oh remember me this way
Woh-oh, woh-oh remember me this way

Don't Say Goodbye
Don't Say Goodbye

FEELS GOOD

Feels Good
It Feels Good
Feels so good (*to be me*)
Feels so good, just to be me

Well you don't understand
This bohemian man
Gonna grow my hair
Right down to there

I never walk straight
I believe in fate (*yes I do*)
I would never lie
Why don't you ask me why

Feels Good
Feels Good
Feels Good (*to be me now*)
Feels Good
Oh feels so good (*don't you know*)
Feels so good (*just to be like I am*)
Feels so good (*yeh*)
Feels Good, oh it Feels Good to be me

Come over here
And go over there
I can change my mind
Just like that
You can call me weird
Oh you can call me dumb
But you know what baby
Living like this sure can be fun

Chorus

Well you don't understand
Bohemian man
Gonna grow my hair
Right down to there

DANCING ON THE GRAVE OF ROCK 'N' ROLL

I like the blues and I like the earth
I like to know which way I'm going in the damn world
What's that stuff they're playing the discos
And who needs it anyway baby
You can do without all of that
You don't need all that fancy stuff
Floating round your head
(We all need some heart and soul)
Ah some heart and soul yeah
(We all need some rock 'n' roll)
Some rock 'n' roll

Cos' we'll be dancing
Dancing on the Grave of Rock 'n' Roll
And we'll be dancing
Dancing on the Grave of Rock 'n' Roll

I hear the people say it's for mindless morons
And I don't dig it
(It won't wash with me baby)
I say it's from the heart
And it relates to everything we've ever done
(We'll ever do)
They say rock 'n' roll is dead and buried
If that be the case
Then I'll be sitting on the top
Looking down at you all, yeh

And I'll be, and I'll be dancing
Dancing on the Grave of Rock 'n' Roll
Oh I'll be dancing
Dancing on the Grave of Rock 'n' Roll

Sitting on top of the world
Looking down at the boys and girls
It's a long way to go to the end of the road

Oh, one, two... one, two, three, four

Oh yeah we'll be dancing
Dancing on the Grave of Rock 'n' Roll
Ooh we'll be dancing
Dancing on the Grave of Rock 'n' Roll
(We all need some heart and soul)
Oh heart and soul
(We all need some rock 'n' roll)
We'll be dancing
Dancing on the Grave of Rock 'n' Roll
Yeh, yeh, yeh
Dancing baby
Dancing on the Grave of Rock 'n' Roll

KEEP IT UP

She gives me money
So much I've got to throw it away
She takes me dancing
Anytime I want she's really nice that way
When I feel lonely
She's knocking on my door just to make me feel good
When I need thrilling
She knows what she likes
And she does what she should

Keep It Up
Oh Keep It Up baby
Keep It Up
Yeh, yeh, yeh
Keep It Up
Oh, Keep It Up

We go to movies
If De Niro is the man she'll think of me that way
We go to restaurants
Do you want to eat it here or shall we take it away
She is so kinky
Her mama don't know but I like it that way

Chorus

She give me this, she gives me that
Too much of this will make a good man...
Bad, bad, bad, bad, bad, bad, so bad

She is my hero
If I'm in a fight she's right by side
If I'm down to zero
She'll pump me right up and take me for a ride

Repeat double chorus

Living on the edge

I WAS A BOY THEN

Seventeen I was a dreamer and a poet (*yes I was*)
Nothing's changed I'm not sure that I know it
I'm as confused as you are
You ask my advice
Before you pull the trigger
Don't think twice

I got no job I got no money
Things are gonna be better one day
I used to think that life was so easy
I Was a Boy Then
You should see me now, hey

I knew this girl, she died of addiction
I made it to here, now ain't that conviction
Oh boy I'm something
Ego still intact (*yes it is*)
I got no memory
No need to look back

I got no job I got no money
Things are gonna be better one day
I used to think that life was so easy
I Was a Boy Then, you should see me now
Oh-oh, see me now

Seventeen I was a dreamer and a poet

MAN IN THE MIDDLE

I'm rich but it's not enough
(I miss the hungry days)
And I think of all the people I've met
(From Sydney to New York)
And I wonder if they miss me at all
(Or if they even care)
Yes my kitchen's all brand new
(But the colour won't make me smile)
I wonder why I even try
To make things happen
The way you are is not for me
It won't happen

(1) Hey diddle diddle
The cat and the fuddle
I'm so fucking stupid
The Man in the Middle
I've got a plan, I've got a mission
Yes it's a riddle for the Man in the Middle

I'll bet you like the way I look
(I'm not faking)
The naked truth for you to see
(I'm not hiding, no)
And I saw the Messiah on TV
(He sang a punk song)
He was caught between the devil
And the deep blue sea
(Man in the Middle)

I lay awake at 3am
Thinking about you
It's not the way I planned for you, no

(2) Hey diddle diddle
The cat and the fiddle
I'm just like
The Man in the Middle
I'm going up, I'm going down
I'm sick of being the Man in the Middle

ONE WAY STREET

Got a wallet and a photograph
Of a wife and a kid
There's a letter inside, says she don't want me back
Don't you ever come back

Got a drug in that bag of mine
It says come on over take me anytime
I am the light of your life
Got to have you tonight

By the time I turned twenty-one
I should have done it all
Pulled out that gun
When I need you tonight

And you just can't hold me down
'Cos I'm headed the wrong way home
One Way Street

I tried living with the people next door
They got sick of a guy sleeping on their floor
They said it's got no style
Can I stay with you for a while

Now I'm back in the singles bar
I got a bottle of beer and my eye on the rear
Of my best friends' girl
Oh I should be ashamed of myself (*but I'm not, no*)

Now I wanna go and have some fun
But I can't meet you baby
Woh and I need you tonight

Repeat double chorus

Got a wallet and a photograph
Of a wife and a kid
There's a letter inside, says she don't want me back
Man don't you ever come back

DROPS LIKE A STONE

(Yo-Yo Version Different From Dancing On The Grave Of Rock 'N' Roll)

ooh – ooh – ooh - ooh
House, down on Pilling
In the bedroom, she lies alone
And she's dreaming of, of a past life
And the lovers she'll never known

Hello again, hello again
My preoccupation
Inside of me, inside of me now

You, your mind is made up
Stand at the window, you're leaving home
And you Drop Like a Stone

ooh – ooh
Truth is, stranger than fiction
Where you landed, the grass won't grow
And the kids all played, in your backyard
Talk about you, even though you're gone

Hello again, hello again
My dear occupation
Inside of me, inside of me now

You, your mind is made up
Stand at your window, you're leaving home
Drop Like a Stone baby
You're mixed up crazy
When they laid you
No one came
And you Drop Like a Stone

ooh – ooh – ooh - ooh
Hello again, hello again
My dear occupation
Inside of me, inside of me now

You, your mind is made up
Stand at your window, you're leaving home
And you Drop Like a Stone baby
You're mixed up crazy
When they laid you
No one came

You Drop Like a Stone
Drop Like a Stone
You Drop Like a Stone
Drop Like a Stone
Oooh you Drop Like a Stone baby
You Drop Like a Stone
Drop Like a Stone yeh

Drop Like a Stone

GONE

One last cup
One last drink
One more fight
One last breath and I'll be gone

One last night
One more day
Time to give
Give what I don't need no more

Don't look up
Don't look out
Don't keep in
What must come out

And I'm wondering what you'd think
When I'm gone

Don't look up
Don't look out
Don't keep in
What must come out

One last thought
One last word
One by one
One by one you walk on by

And I'm wondering what you'd think
I'm wondering what you'd do
I'm wondering what you'd say
When I'm gone
When I'm gone
When I'm gone

SOLO

She dropped the kids in day care
Drove off in the cold
She's gonna meet her new romance
Not wearing gold
Thirty-two but she looks twenty-two
Maybe that's why I looked at you
I guess you know you could be somewhere else
But the choices you've been makin'
Ain't good for my health

Out on the mezzanine
You sip Italian coffee
And you talk to your dream
Down in life's basement
I'm waiting for the lift
That'll take me to your floor

I don't wanna look at you
If I can't have you
I don't wanna dream about it
If I can't touch you

Sometimes you have no choice
I shoulda heard the words from your voice
When you said, I'm going Solo

I was waiting outside your door
Looking in your windows
One night you nearly caught me there
Climbing up the stairs

I know it's dumb to be doing this stuff
I tried growing up
But growing up is too rough

Come on Susie
Won't you save me from this pain
Invite me in for coffee
Get me out of this pouring rain

I don't wanna think about it
If I can't know you
I don't wanna talk to you
If I can't hold you
I don't wanna live without it
But I guess I have to

Sometimes you've got no choice
I shoulda heard the words from your voice
When you said, I'm going Solo

I don't wanna look at you
If I can't have you
I don't wanna dream about it
If I can't touch you
I don't wanna talk to you
If I can't hold you
I don't wanna live without it
But I guess I have to, have to

Well I guess I have to
I guess I have to
Well I guess I have to

But something very strange has gone on
It was an almost normal night
In a very confused life

You came into my life on Monday
And I was hoping then and there you'd go away
But if you hear these words
Then the chemicals might occur
The ones make you want me to climb on
And I can't believe I'd even write this song

I wonder how high or low I'd go
Or is this a cool way to let you go
If I were you I'd be impressed
Let me help you out of that dress
Cos' I need a part of me in you that's long
And I can't believe I'd even write this song

Can't believe I...

Fuel (A Day In The Life)

Somebody got next to you, before I knew you
Inevitable in time, you find yourself on the line
All the dancers in a row, there was no creative show
When the rain gets in your eyes,
You wear it like a disguise

Oh, oh, oh, you've been living up to you
Oh, oh, oh, and now there's nothing you can do

And you're making it
Fuel for thought I know
It's gonna be bad to let you go
(Going outta my mind)
And you're making it
Fuel for thought one day
When you break away

Somebody gotta tell you, they've got a love for you
All these things you been finding out,
You knew before the start
Are the words how they burn, in the fire they consume
Gotta try it you will learn, jump in the water's warm

Oh, oh, oh, and you got to live this way
Oh, oh, oh, and no matter what we say

And you're making it
Fuel for thought I know
It's gonna be bad to let you go
(Going outta my mind)
And you're making it
Fuel for thought one day
When you break away

By the time your mind is made up
Will you ever be happy then?
Will you ever find salvation
In the arms of a thousand men?
Will you ever be happy then?

It's six o'clock in the morning
She's sleeping with me
I know I'm a little overgrown
But she seems to like the fantasy

Now she's the Queen of Victoria
She's the Queen of AM
I know I'm a little overgrown
But at least I got there in the end

Hey everybody
You got a message for me
You know she won't comfort me
I know I'll have to let it be

She talks to the Pharaohs
And swings amongst the people
Like she never saw the light of the day
She's gotta be standing at the pillars
Of a life of locomotion
Now I know she'll never want to stay

Ooh, hoo, hoo

I know I'm dreaming (*just keep on dreamin*)
But I don't care (*don't you care*)
She's like intellectual property
There's nothing ever really there

Hey everybody (*hey everybody*)
You got a message I see (*got a message*)

She keeps me warm when the sun goes down
She lets me know when there's trouble around
She likes to sleep with her head on my chest
And all my friends say that she's the best
When we go walking people stare
Is it the clothes that she don't wear
She'll never lie or will she run
I won't deny it she's my number one

Love (*It's been on my mind*)
Don't get better than taking her out all around my town
She loves my face and she shares my space
If it's love that you're looking for
It don't get better than that
It won't get better than that

She's never angry, she's never uptight
The way she needs me makes me feel alright
She doesn't mind if I come home late
She's there waiting at my front gate

Love (*It's been on my mind*)
Don't get better than taking her out all around my town
She loves my face and she shares my space
If it's love that you're looking for
It don't get better than that

I'm still fighting with my ex-wife
All you need is love
And I'm trying to start a brand new life

Wee, ooh, wee, ooh
Wee, ooh, wee, ooh
Wee, ooh, wee, ooh
We Dream On

You don't know
(You don't know what it's like)
You don't know
(You don't know what it's like)
You don't know
You don't know what it's like to Dream On

(Dream On)
(Dream On)
(Dream On)
(You don't know what it's like)

Wee, ooh, wee, ooh
Wee, ooh, wee, ooh
Wee, ooh, wee, ooh
We Dream On

Got a gig on Venus *(Dream On)*
I'm still aiming at the moon *(Dream On)*
And my God you shoulda seen us *(Dream On)*
We won't be coming down too soon *(Dream On)*

Wee, ooh, wee, ooh
Wee, ooh, wee, ooh
(You don't know what it's like)
Wee, ooh, wee, ooh
We Dream On

You don't know
(You don't know what it's like)
You don't know
(You don't know what it's like)
You don't know
You don't know what it's like to Dream On

Please Believe Me (Come Together)

My life is changing
The whole world's rearranging
I believe it's coming
We're going down, down, down

I've got a line worth saying
I can tell you've been praying
All my life I've been saying that
I'm going down, down, down

Please Believe Me when I say to you
That I'm not going to make it
It's not my scene
I can't deceive you when I'm with you
I won't be a part of your greatest dream

What about last weekend
The voodoo you were seeking
Something more I'm not giving
I'm going down, down, down

Please Believe Me when I say to you
That I'm not going to make it
It's not my scene
I can't deceive you when I'm with you
I won't be a part of your greatest dream

Please Believe Me when I say to you
That I'm not going to make it
It's not my scene
I can't deceive you when I'm with you
I won't be a part of your greatest dream

One step you've been taking
You've gone too far now there's no mistaking
I don't ever want to drive that way again no

I believe we come together
We're going down, down, down

Please Believe Me when I say to you
That I'm not going to make it
It's not my scene
I can't deceive you when I'm with you
I won't be a part of your greatest dream

Please Believe Me when I say to you
That I'm not going to make it
It's not my scene
I can't deceive you when I'm with you
I won't be a part of your greatest dream

(Please Believe Me)
Your greatest dream
Your greatest dream
(Please Believe Me)
Your greatest dream
Your greatest dream
(Please Believe Me)
Your greatest dream
Your greatest dream
(Please Believe Me)
Your greatest dream
