

## TALK BIG

You think you own the place  
You say you pay the bills  
You say you know the man  
You know the man by name  
Yeah, yeah, you gotta mouth  
You can outdrink the boys  
You've even laid their wives

Well you Talk Big  
But you ain't got nothing to say  
All that big talk  
But your mouth gets in the way

Well I've seen the dirty side  
The dirty side of you  
And I've seen you kiss the feet  
Of someone better than you  
Yeah, yeah, don't call me friend  
They're gonna take me for everything  
Everything they can

Well you Talk Big  
But you ain't got nothing to say

Come on  
Tell me something new  
Tell me something I don't  
Tell me something I don't know

(Talk Big)  
But you ain't got nothing to say  
(Big talk)  
But your mouth gets in the way

### Repeat double chorus

Say something, say something  
Say something good  
Say something, say something  
Say something I don't know
