

## YAMAHA SPRINT X Country Series Points 2009

The Series point for Round 3 have been calculated as follows.

For every lap, riders were awarded the regular points as per their placing for that lap.

ie. 25, 22, 20, 18 etc.

This was performed for all six laps.

These points were totalled for each rider, therefore a rider could earn a maximum of 150 points during the day.

Finally, so that Rd3 was worth the same as the other rounds, the riders total for the day was then multiplied by 2/3rds to give the series points.

This way, the series points scoring was kept within the spirit of the Sprint XC series and all laps for Rd 3 counted.

As an example if a rider placed 2nd, 3rd, 5th, 4th, 5th and 6th for his laps then his points would be  $22 + 20 + 16 + 18 + 16 + 15 = 107$ .

Then  $107 * 2/3 = 71$  Series points.
